KDES TEACHER EXCHANGE WITH HAWAII

Two years ago, KDES took the first step in an international teacher exchange program when Ms. Alda Anderson spent the 1976-1977 school year in Trinidad, working with two schools for the deaf. This year, as the second half of that exchange, Ms. Kathryn Donaldson, principal of the Audrey Jeffers School for the Deaf in Marabella, Trinidad, has worked in the KDES Middle School Dept. This exchange has proved beneficial to everyone involved.

In a continuation of the teacher exchange (although it is not international this time), KDES will send a teacher to the Hawaii School for the Deaf and Blind for the 1978-79 school year, at the same time employing the services of a teacher from that school. Mr. Don Mahoney, a teacher at KDES for the past eight years, will leave in early August for the island of Oahu, where the Hawaii school is located. Ms. Joan Peterson, a teacher from the Hawaii school, is already on our campus, where she is taking summer courses in teaching the multiply handicapped. When KDES opens in late August, Ms. Peterson will be working in our diagnostic classroom.

During the time that Mr. Mahoney is in Hawaii, faculty and staff persons from all Gallaudet College units may consider him a resource person for information relating to the Hawaii school. After Sept. 1, he may be contacted at the Hawaii School for the Deaf and Blind, 3440 Leahi Ave., Honolulu, Hawaii, 96815.

The Mahoneys hope to rent their home in Bowie, Maryland, for the time they will be away. Anyone interested may contact Don at KDES.

CAMPUS INSPECTION 1915

Corrine Hilton, who works in the College Archives, has sent me a copy of a letter written by Dr. Hall in January of 1915. The letter, written to Mr. Drake, discusses an inspection that was made of the farm and certain suggestions for improving conditions. The following are some of his suggestions:

"As I noted this morning, it would be wise to take down immediately dangerous dead stub just beyond the barn yard which is liable to fall on telephone wires or passers by.

First-class condition of the buildings calls for the removal of all pigs, as soon as possible. This matter, you have already reported to me, and it cannot be carried out, of course, until a proper house is built to accommodate them."

*****Campus improvements have always been a part of Kendall Green!
